PROFESSIONAL SUMMARY

Results-driven Full Stack Developer experienced in building high-volume, low-latency applications for mission-critical systems with high availability and performance. Contributes across the full product development lifecycle, delivering efficient, testable code, release-ready components, and continuous improvement through technology evaluation.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful API Development
- **Database:** MongoDB (Schema Design, Indexing, CRUD Operations)
- **Architecture & Concepts:** MVC Architecture, SDLC, Agile Methodology, Authentication & Authorization, API Integration, Performance Optimization, High Availability
- **Tools & Practices:** Git, GitHub, Debugging, Code Reviews, Release Management, Continuous Improvement

PROJECT EXPERIENCE

Urban Company – Clone | Full Stack Web Application

Tech Stack: React.js, Node.js, Express.js, MongoDB

GitHub: <https://github.com/suba466/urbancompany/>

- Designed and developed a scalable, high-volume, low-latency full-stack web application following an end-to-end product development lifecycle.
- Built and optimized RESTful APIs to ensure efficient data flow, reduced latency, and reliable backend communication.
- Implemented MongoDB schema design, indexing, and CRUD operations to support high-volume data handling and performance optimization.
- Ensured high availability and compliance with functional and technical specifications by applying MVC architecture, coding standards, and continuous performance monitoring.
- Supported release preparation and deployment through debugging, performance tuning, refactoring, and evaluation of alternate technologies for architectural improvement.

EDUCATION

M.Sc. Mathematics — Bharathiar University (2023–2025)

B.Sc. Mathematics — St. Joseph's College for Women (2020–2023)

TRAINING & CERTIFICATIONS

Full Stack Development (Professional Program) — Nschool Academy (Completed, 2025)
